WORK EXPERIENCE

Smartsheet

Product Designer, Design Systems Intern

Bellevue, WA

May 2024 - Current

- Led the design and documentation of 3 critical design system components, resulting in a 20% increase in development efficiency and improved consistency and accessibility across the platform.
- Established platform-wide grids and layout constraints, setting up a strong foundation for the design system and ensuring consistent and cohesive design practices across 8 design teams.
- Prioritized component roadmap and scoping requirements in collaboration with engineers and designers to increase component development efficiency by 10%.

Johnson Controls

UX Designer | Industry Sponsored Project

Indianapolis, IN

Sep 2023 - May 2024

- Iteratively improved product workflows through 7 usability testing sessions, achieving 2.7x faster workflows.
- Spearheaded the creation of high-fidelity prototypes, and UX documentation, delivering 12 redesign improvements.
- Conducted 5 user interviews & analyzed 8 competitors to understand the video surveillance domain and pain points.

VoiceXD

UX Design Intern

Los Gatos, CA

May 2023 - Dec 2023

- Spearheaded platform redesign in direct collaboration with engineering team, driving a 22% increase in user base.
- Conceptualized and shipped transcript analysis feature with GenAI capabilities, enhancing core platform experience.
- Collaborated directly with CUI design and marketing consultants to help boost user-retention on the platform.
- Shipped 6 features for the platform in close collaboration with engineers and designing technically feasible solutions.

Tata Consultancy Services

Assistant System Engineer

Ahmedabad, India

Oct 2020 - Jul 2022

- Developed multiple code modules to enhance functionality and user experience for core projects in an agile setting.
- Incorporated inclusive design principles and accessibility guidelines to ensure catering to a diverse range of users.
- Researched and synthesized emerging design trends, presenting findings in a workshop to 14 team members; discussions inspired new design initiatives, elevating overall team design approach.

Easilydone Technologies

UX Engineer Intern

Ahmedabad, India

Dec 2019 - Apr 2020

- Designed and built responsive web and mobile applications, reducing onboarding paperwork by 95% for the client.
- Created journey maps, storyboards, wireframes and UI designs to present existing problems and proposed solutions.
- Synthesized user feedback and business requirements into designs, resulting in improved customer satisfaction.

Easilydone Technologies

UX Design Intern

Ahmedabad, India

Feb 2019 - Jun 2019

- Led the end-to-end design of the company's first mobile application for visitor management & shipped it in 3 months.
- Conducted competitive analysis and 4 user interviews to understand the demand for visitor management.
- Built clickable high-fidelity cross platform prototypes to test and validate designs with users.
